

LTA-350

Advanced cash recycling helps you connect with your customers in a whole new way.

Use the power of innovative **LG CNS LTA-350** technology to increase efficiency, security and cost control in your branch — all while building better relationships with your customers. The most advanced cash recycling solution on the market, the user-friendly LTA-350 can elevate service levels and increase profitability at the same time.

USER-FRIENDLY

- 8" tilting touch screen is the largest in the industry, facilitating teller, multi-teller or customer use depending on selected mode
- Easy-to-use, intuitive interface for operator guidance
- Accelerates transaction times and minimizes lines

EFFICIENT

- Automatic, unattended self-auditing
- Continuous feed
- Quick count functionality
- Up to 12 notes per second

CONVENIENT

- Designed for a variety of branch footprints
- Counter/pod/desk-friendly
- Reduces the need for teller day chests
- Compact door and drawer clearance ranges

SECURE

- Serial number recognition
- Operational cassettes accessible with electronic lock and key
- Reduces cash access and floor risk
- Eliminates need for drawers
- Minimizes transfers and vault buys/sells

AFFORDABLE

With flexible integration options and unmatched BranchServ support and service, the LTA-350 makes advanced cash recycling a cost-effective solution for your bank or credit union.
